

Let's find out

A key part of our science learning is understanding how to work 'scientifically'. While we do this every term, our 'let's find out' unit focusses specifically on the art of investigation.

Plants:

How is water transported in plants?

What will happen if a plant is placed in coloured water?

Shadows:

- How are shadows formed?
- Why do shadows change?
- How can we use shadows to tell the time?

Vocabulary

- Conclusion
- Diagram
- Distance
- Effectiveness
- Enquiry
- Formed
- Hypothesis
- Investigate
- Light source
- Method
- Outline
- Results
- Sundial
- Survive
- Transport
- Variable
